No need to hear your voice or see your face
To know that you are with with me,
No need to kiss your lips or hold your hand
To know that you can feel me
I know that you can feel me

[CHORUS]

When I look to the stars
I know just where you are
You're looking down upon me
(You're looking down upon me)

When I look to the stars
I know just where you are
You're looking down upon me
(You're looking down upon me)

No need to get locked up inside the past
I know that isn't changing
No need to let you go or say goodbye
I know that you'll be waiting
I know that you'll be waiting

[CHORUS]

When I look to the stars
I know just where you are

You're looking down upon me
(You're looking down upon me)

When I look to the stars
I know just where you are
You're looking down upon me
(You're looking down upon me)

On the other side!

On the other side!

I've got to find a way
To keep my pain from burning
Down to the bone

I've got to find a way
To keep my pain from burning
Down to the bone,
Down to the bone!

[CHORUS]

When I look to the stars
I know just where you are
You're looking down upon me
(You're looking down upon me)

When I look to the stars
I know just where you are
You're looking down upon me
(You're looking down upon me)
