

Dead By Sunrise "Inside Of Me"

I feel my time is slipping away
Every minute gone by seems like a day
I'll never get back the things I lost along the way

What the hell is wrong with me?
This isn't who I'm supposed to be

I feel more alone everyday
And just so far away
I know something's got to change
Inside of me
What is it that I'm running from?
My head is like a loaded gun
Every thought is trapped inside this web I've spun

What the hell is wrong with me?
This isn't who I'm supposed to be

I feel more alone everyday
And just so far away
I know something's got to change
Inside of me

I feel more alone everyday
And just so far away
I know something's got to change
Inside of me, me
