Smoke another cigarette
It kills the pain
That's all that's left
Of me anymore

Choke on all of my regrets
Feeling the strain in every breath
Stumble as I crawl

Then I fall into you
And I fade away
I fall into you
And I fade

Like a crutch you carry me
Without restraint
Back to a place
Where I am not alone

I'm a man whose tragedies
Have been replaced
With memories
Tattooed upon my soul

Then I fall into you
And I fade away
I fall into you
And I fade

You said time to tear down the walls
You know not everything's your fault
But in a way
Our mistakes have brought us here today
You say just look how far you've come
Despite all those things you've done
You'll always be the one to catch me when I

Fall
Into you
And I fade away
I fall
Into you

And I fade

Say goodbye to yesterday (Say goodbye to yesterday)
I made it through
I made today
Despite what I was told
You were there to rescue me (You were there to rescue
me)
You shine your light so I could see

Then I fall
Into you
And I fade away
I fall
Into you
And I fade

I fall
Into you
And I fade away
I fall
Into you
And I fade
