I want i need  
I hunt i see  
The one i want and then i proceed  
To make a fool out of myself  
And then i succeed

It happened so fast i can't even grasp  
If what's real is real and how she makes me feel  
When she's holding my hand and calling me her man  
And telling all her friends we'll be together till the end

And then i blow it i didn't even know it  
I found out from a friend who found out from a friend  
And right before my eyes it cumbled to the ground  
My permanent smile has turned to a frown

It happened so fast i can't even grasp  
What's going on or what's going wrong  
Is it something i said or my skills in the bed  
I doesn't matter now because she wishes i was dead

I know  
Its just the way it goes  
I guess i had to find out  
The hard way

I guess i'll write it off  
I guess i'll get pissed off  
I guess i'll blame it all on you

And now i'm back but now i lack  
The sense of pride that she gave to me  
And maybe someday i'll get it again  
I'll just wait and see

It happened so fast i can't even grasp  
What's going on and what's going wrong  
Are you in are you out  
Are you having some doubt  
Is it really your fault or should you just bow out

Where you going tonight...with me?
