I wore it out, I played along a bit and missed a hit. Iæŝ!
out of trace now, walked away now, alright... tried to
fight, I look at emptiness, my private mess. Iæŝ! out of
place now, just walked away now, alright... gimme back
the choice to win again, gimme back the voice so I can
sing along with them. Iæŝ! out of trace now, lost my
face now, alright... wore it out, I played along a bit,
missed a hit. Iæŝ! out of place now, walked away now,
alright... peace is over... peace is over... peace is over...
peace is over... peace is over
