So anyway,
What's to say?
When everything seems so far away
So listen here
Let us make ourselves clear
Cause weve only got one thing left to say
Don't it always come down to something
Keep on pushing us back to nothing
Be afraid because silver moon is she'd (?)
Deal with it
So deal with it
So tell me how
We deal with this now
Cause lately it's way to much for me
While unexplained
So much is the same
But weve only got one thing left to say
Don't it always come down to something
Keep on pushing us back to nothing
Be afraid because soon the moon has she'd
Deal with it
So deal with it
I gotta get outta here
I gotta get outta here, my friend
I gotta get out
We gotta get outta here my friend
