"Red Skies At Mourning"

Visit "[Red Skies At Mourning](#)" on MotoLyrics.com

Exit polls and bulletholes this existential world molds -
There's no protection when the world is fighting and all
the death is multiplying -
Fire in the sky - blood on the ground - I don't think i can
take the sound -
Paranoid from CNN - war is cable's rating friend

When the bombs drop will you fight - or will you run and
hide -
Distributing mushroom clouds - and pamphlets for the
crowds

I am safe here - I'll be safe here - mortar fire - but I'll be
safe here

We must do this for the world - we must do this for
the....
(Line your pockets - line your pockets)

Trust me - you can trust me

Last chance to fight back - red skies at mourning -
People take cover a last minute warning -
The world isn't ending but you'll think it is -
When the bombs change the landscape and disfigure
the kids
