When you find it steal it - don't ever let it go - looking
beyond the obvious
Isn't easy but it needs to be done - can't you see it
flinch
Why not - why not - why not

Everything has a reason - you fix it when its broke -
clean me when I'm dirty -
But your faith is just a joke

Now I've got a new toy (with pretty little doll eyes) - I
gave you everything I could -
But you went and fucked around anyway you slut -
Now I've got a new priority keeping your mouth shut

Cuz I'm dirty - so just wait til tomorrow - cuz I'll be clean
again

I left my body today - I'm tired of this fucking place -
I killed your once loved memory - blocking out your
motherfucking face

Finally I'm clean - (your dirts washed away)
And out of your grasp and into someones bedroom
But you haunt me everyday (I still smell your scent)
So I'm infecting her bedroom instead
