Strobelights - lit her face - as she floats - across the row  
- angel lace -  
Dirty knees - nylons torn - as I want her even more and  
more

(I can't believe what you've done to me)

I'm thinking back - on the times - that we spent -  
intertwined  
Now you're gone - and I'm free - to retreat inside this  
misery

You are my October bride - another little girl has died  
Leaving behind her dreams - it's never quite what it  
seems

(Everything is dying - everything is dying)  
You are the nails in the coffin try to bury me  
Digging inside me - deeper inside me - shreds of you  
are all I see

Touching her skin - the flashbacks - time to begin - the  
flashbacks  
Burning again - these flashes - drowning the pain -  
insane  
Life on a limb - depersonalize - now no one wants you  
but the flies  
Its no surprise - I came back for you - wanting this when  
first I saw you

Surrounded by this - when first I saw you - what could I  
do - I had to taste you  
Nothings the same - these bad decisions - leave me in  
the worst positions  
Stoking the fires - midnight - sadism by candlelight  
Without the madness I'd be lost - submission gained at  
any cost
