Don't fade away  
My brown-eyed girl  
Come walk with me  
I'll fill your heart with joy  
And we'll dance through our isolation  
Seeking solace in the wisdom we bestow  
Turning thoughts to the here and hereafter  
Consuming fears in our fiery halos  
Say what you mean  
Mean what you say  
I've heard that innocence  
Has led us all astray  
But don't let them make you and break you  
The world is filled with their broken empty  
dreams

Silence is their only virtue  
Locked away inside their silent screams  
But for now  
Let us dance away  
This starry night  
Filled with the glow of fiery stars  
And with the dawn  
Our sun will rise  
Bringing a symphony of bird cries  
Don't bring me down now  
Let me stay here for awhile  
You know life's too short  
Let me bathe here in your smile  
I'm transcending  
The fall from the garden  
Goodnight
