So, I was in my car
Wasn't going that far
Just ten miles in the sun
Things were going my way
It was a brand new day
That had just begun
Heard a love song
Couldnt go wrong
It was all about window down
Arm goes out
Cruizin' down the road
All of a sudden

There was a car crash
Didn't even see it coming
It was soo fast
Watch it all go down
Now this mishap
Has left me here with nothing
But a car crash
And the life it turned around

I saw a splash of white
And I watched my life
Unfolding in my head
Am I still alive
Maybe that's not right
Just wishing I was dead
All that I know
Is it was slo-mo
I couldn't open up the door
Window down
Arms go out
Water coming in
All of a sudden
I wasn't dreamin
Am I swimming for my life
But I'm still breathing
I had to wonder why

There was a car crash
Didn't even see it coming

It was soo fast
Watch it all go down
Now this mishap
Has left me here with nothing
But a car crash
And the life it turned around

Who would of thought
My life would change today
I never thought that it would be this way
And now I finally see
The road in front of me...
The road in front of me...

There was a car crash
Didn't even see it coming
It was soo fast
Watch it all go down
Now this mishap
Has left me here with nothing
But a car crash
And the life it turned around

It took a car crash to see
It took a car crash to see
The road in front of me
It took a car crash to see...
