The way you looked in white
The way the silence swallowed you and I
The way I met your lips
The way I almost didn't try I...

Had a fear I never would find love
Fear I never would be happy
Happy...
A fear I never could stand up
A fear I never would find my today
I have been waiting for...

This kind of love
This kind of place
I have been waiting for...
This kind of life
Living this way
I have been waiting for us.
For us...

The way I sat in the room
As we waited for life
The questions just grew
With a cry and your face
The perfection just took me away from...

Fear I never would be happy
Happy...
A fear I never could stand up
A fear I never would find my today
I have been waiting for...

This kind of love
This kind of place
I have been waiting for...
This kind of life
Living this way
I have been waiting for...

All the feelings I imagined would be
All the feelings that I have needed to see
All the feelings that I imagine where you

All the feelings that lead me too...
This kind of love
This kind of place
I have been waiting for...
This kind of life
Living this way
I have been waiting for love
For love...
For love...
For love...
I have been waiting for love.
