All I know is what I know
And I don't know that much right now.
I see your face, I watch you blow,
But that don't feel good somehow.
So just hold up lets take it slow
So I can soak up all the doubt.

All I know is all I know...

Well it could be you...
It could be me..
What can I do?...
Come help me see...

So here we go another show
That I just can't do without
I show my face, now watch it glow
How much more till I burn out?
If you want more, well just say so
'Cause I can't live with all the doubt.

All I know is all I know...

Well it could be you...
It could be me..
What can I do?...
Come help me see...

Say all that you want to say
I've got so much more than energy
So just play on or play out on me...

Keep it coming now tell me all your feelings and how
I should know what you're talking about.
I can't help but think I can't help but wonder
Why I can't figure out.
It could be me this could be true.
It could be everything that I do...
Or...

It could be you...
