

## Small Town Sleeper "Song For The Summer"

Visit "[Song For The Summer](#)" on [MotoLyrics.com](http://MotoLyrics.com)

I remember warmer weather. Sticky skin on the 4th of July.  
Making memories of our fantasies. Feeling so at easy knowing we where...  
Fine... Cruising down the back roads  
Singing in...time...to the one song sticking in our minds.

Chorus:

So here's a song for the summer.  
Where sunny days fuel the hunger for tailgates and lemonade,  
A station wagon bed and a midnight escapade.  
So here's a song for the summer. Where sunny days make me younger.  
Tailgates and lemonade,  
And a drive-in movie with a late night lover.

Smiling faces on a sunny day. Going places that were miles away, but hey...  
We're doing what we want and we like it that way.  
We're buying something from the corner store.  
Soaking wet, but who could ask for more for sure...  
And everybody knows that we were just feeling...  
Fine...cruising down the back roads singing in...  
Time...to the one song sticking in our minds.

Chorus:

We stayed up all night and we were just feeling alright.  
Sitting on the front porch mapping out fireflies.  
It won't be too long until the summer is gone.  
The radio playing our song and everyone singing along.

Chorus:

I remember warmer weather.  
Sticky skin on the 4th of July.
