If I were a tape recorder  
Would you take me in Your pack?  
You could say anything  
And I would play it back  
If we took the beach side down  
To where the boardwalk ends  
I would find a way  
To introduce You to my friends

CHORUS:

Were You a pool there on the mountain standing tall  
I would be a waterfall  
I would carry water down from depths that run untold  
Living water  
Walls can't hold

If You were the umbrella now  
And I the driving rain  
I'd wish You were a bucket  
Underneath the window pane  
If I play the field a while  
I might miss the catch  
When I show my colors  
I'll be in need of their match

CHORUS

If Your words were water  
Brimming over to be heard by all  
I'd be the drop there on the edge  
The drop that pulls the waterfall  
Pulls the waterfall  
I will be the piece of clay  
And You the hands that mold  
You will be the purchase made  
Of everything I've sold

CHORUS
