"Freeway"

Visit "[Freeway](#)" on MotoLyrics.com

Hey, wanna speed away
Let's pack our bags
Let's leave today
Where every sounds says that I wanna go
Let's ride to road ahead
And who knows where
It's gonna end
It there's a time for work
It's time for play

My feet don't touch the ground
And at the speed of sound
I'll leave it all behind
I'm free
And this is what you do to me

Your love is driving on a freeway baby
And every moment goes rushing by
I check your review in my mirror, baby
You can take me, take me any time
Your love is driving on a freeway honey
And every moment goes rushing by
If you get close enough to touch me baby
You can take me, take me any time

Turn on the stereo
And I can hear your simple song
The music burns a path
Across my soul
There's no say they leave it's here
So let's go where we wanna go
And if we want
We'll spin out of control

My feet don't touch the ground
And the speed of sound
I'll leave it all behind
I'm free
And this is what you do mo me...

Your love is driving on a freeway baby

And every moment goes rushing by
I check your review in my mirror, baby
You can take me, take me any time
Your love is driving on a freeway honey
And every moment goes rushing by
If you get close enough to touch me baby
You can take me, take me any time

Freeway! Freeway!

Your love is driving on a freeway baby
And every moment goes rushing by
I check your review in my mirror, baby
You can take me, take me any time
Your love is driving on a freeway honey
And every moment goes rushing by
If you get close enough to touch me baby
You can take me, take me any time
