

Smashing Pumpkins "Death From Above"

Visit "[Death From Above](#)" on MotoLyrics.com

a little hunger
a little wonder of
death from above

death from above

oh mary mary
what are we asking of
death from above

yes lord im sinking
i wonder just how far
what was i thinking
oh when i fell apart

i see the moon move
cover me under the spell
i see the few souls
cover me hungry and cold

i know the first thing
running up under your path
i know this can't last
death from above

shoot here comes
death from above

a little reject
a simple conjure of
death from above

you rock 'n' rollers
you sudden victims of
death from above

oh death from above

yes lord im sinking
i hunger where you are
what's left but notice

to notice just how far

i see the moon light
cover me under the spell
i see the few souls
begging bury us now

i know the valleys
running up under my path
i know the (spare leaves?)
death from above

oh here comes death from above

oh lord i'm sinking
i just dont know how far
its death from above

yes love i'm sinking
i hunger where you are
death from above

death from above

yes lord i'm thinking of
death from above

yes lord i'm thinking of
death from above
