Innosense  
Innosense finds you there  
Innosense  
Innosense doesn't care

Any way, you choose  
The sun and the son  
Are true, hold me now

I won't let go, innosense  
Innosense lets you go  
Innosense holds you down

Any way  
Any way that you want  
And you will be there  
With the sun

And you say you don't care  
Oh, any way  
Any way that you want  
In the love

In the love we're unsung  
It's any way  
Any way that you want  
Hold it in

Innosense in your arms  
Innosense  
Innosense holds you there  
Innosense

Innosense doesn't care  
Innosense  
Innosense lets you dream  
Innosense
