How I love you
Isn't fair
God must want me
Next to you there
And if I show up
You disappear
Will you find me
Half as near?

Tangled in your body
Spangled by the night time stars

Of all the lovers
To be a friend
I'll come back when
You know me

And it's a sad state
Of happiness
If I confess
To my loneliness

Tangled in your body

Spangled by the night time stars
Tangled in your body
Spangled by the night time stars

How I've loved you so
It's how I've loved you so

Butterflies don't fly
Broken hearts don't cry no no
How I've loved your body, baby
How I've loved your sapphires and rubies
Butterflies don't make it in movies

How I've loved you so
God I love you so
God I love you so
