Hit it

A live wire moves slow
A transformer always knows
The score is four
Leaves you hanging on the floor
For more and less and more of the blame

And she's tired
And she's sick of the same old shit
It's just more of the same old same
I know she wants more and more
And more and more to witness
To lay down and bear true

A cherry onion firefly
Tastes sweet and white
As you are blue
Knows just what she wants to do
With you below the silver skies

Don't hate her because she's undecided

And she's tired
And she's sick of the same old shit
It's just more of the same old same
I know she wants more and more
And more and more to stomach
In honor of her youth

She's not sorry, she's happy
Sorry, she's happy
She's not sorry, she's happy
Sorry, she's happy
She's not sorry, she's happy
Sorry, she's happy as a turtle
