I've been searching night and day
Still haven't found what I'm looking for
Why you always run away
Is a mystery, makes me want you more
Â
How do you do
The things you do
I'd really like to know
Â
Come Chameleon
Show me your colours
Tell me the secret
Of love under cover
Come Chameleon
Show me your colours
Tell me your secret
Don't need any other
Â
You've been hiding for so long
But I found a way, I'm not letting go
To the world you call your own
Baby let me in, cos I need you so
Â
How do you do
The things you do
No one can take you away from me
How do you do
The things you do
This love was meant for eternity
