Out of This World

By Michael W. Smith, Deborah D. Smith, Amy Grant & Beverly Darnall

On Change Your World (1992)

Take stock of your life

What's wrong and what's right

Empty pockets, got no green

Don't you know that sunshine is free

What breaks have you had

Some good and some bad

Wanna go but got no car

Dreaming dreams can take you far

Chorus:

You will find that life's worth living

In this world, it's out of this world

With a little love and a little giving

In this world, it's out of his world

Look to the future

Who's in the picture

Say your love life's just a dream

Still you've got a friend in me

Today, tomorrow

Laughter and sorrow

Gonna be some lows and highs

Might as well enjoy the ride

Chorus

Rap: (ed: is not actually on my copy!!!)

It's all in your point of view

A different look will see you through

So check it out

'Cause life's worth living

In this world, it's out of this world

Chorus
