All I hear is entity
Open wide feel the breeze
All I hear is entity
Open wide all to see

How far shall I look
I look all around
How far shall I look
I look all around

All I hear is entity
Open wide feel the breeze
All I hear is entity
Open while
Closely feel the wheel of emotion
Closely feel the wheel of evolution

All I see is a small world
Inside a big world
What I see is a small world
Inside a big world
Which doesn't know which way to look at all
Which doesn't know which way to look at all

How far shall I look
I look all around
How far shall I look
I look all around

I look all around
I look all around
I look all around
