

Smith & Mighty **"The Way We Feel"**

Visit "[The Way We Feel](#)" on MotoLyrics.com

I see it from my window
And taste it in my food
It happens all around
I slowly watch it happen

The way we feel it should be
Has a right to emerge

Sitting by the water
Is just another place
The comfort to be found
It will not go away

The way we feel it should be
Has a right to emerge

Living life in cycles
Reaping what you sow
For love we have to give
If love we want to glow

The way we feel it should be
Has a right to emerge

The way we feel it should be
Has a right to emerge

The way we feel it should be
Has a right to emerge
