I and I alone  
can but do for you  
to twist in my hand  
the thorn of thy youth  
in draw thy seed  
to turn in birth  
thy sighs thy moans  
I and I alone  
I will wash your feet  
and dry them with my hair  
I will give to you  
every other tear  
thy spear thy mouth  
thy season of mirth  
thy highs thy lows  
I and I alone  
ghost of thy ghost  
walk I will walk  
a burning stem  
to illumine thy night  
blood of my blood  
bone of my bone  
can but do for you  
I and I alone
