Visit "[My Beer](#)" on MotoLyrics.com

If I want to see you because I need you
I know that's great
If I want to feel you because I miss you
You are my pray

You will never come back, 'cause you'll never go away
This is the way I do
Please me now or kill me right!

If I want to drink you that's 'close I need you
Inside of me
If I want to think you because I feel good
Inside of me

You will never come back, 'cause you'll never go away
This is the way I do
Please me now or kill me right!
When you tried to say you tried to scape
Always in the way you do Kill me now, say good bye

If I want to feel you
That's close I need you
I like to drink my beer
