IÃf'Ã,'m sitting here for hours, just listening to the rain

Trying to get up, pick me up, but itÃf'Ã,'s all in vain

Every muscle is resisting the thought

I canÃf'Ã,'t move

What am I gonna do, baby IÃf'Ã,'m all alone

The biggest love of my life became someone IÃf'Ã,'ve known

It was my decision, I would make it again

But that doesnÃf'Ã,'t ease the pain that my heart is in

I broke every promise I made and I fucking lied

I choked you can say what you want but you canÃf'Ã,'t say that we havenÃf'Ã,'t tried

It was forced, Ãf'Ã,'cause of all the fights we couldnÃf'Ã,'t love no more

In the end we both didnÃf'Ã,'t know what we were fighting for

I feel so cold inside

Thoughts and actions they collide

I just know that there is no tomorrow

For us both so I just wrap it up and go

I hoped that I could drop it, shit's gone to far

reached the point of no return, let it burn, until it scarred

too much rejection so many imperfections
a lotta good intentions but no actions
I wished it all better, we'd get back together
But I know when that happens, I'll tell ya, never!
Too many things unsaid, never to be spoken
That's why we remain heartbroken
I broke every promise I made and I fucking lied
I choked you can say what you want but you can't
say that we haven't tried
It was forced, 'cause of all the fights we
couldn't love no more
In the end we both didn't know what we were
fighting for
Can't take this shit no more
I'll shut and jam this door
From now on I'll go on
My time with you is done
Now I'm fed up, I can't take this no more
So I'll get up, I have been here before
Keep my head up, I am letting you go
and then I'll set up, no more lies for you. NO
