I'm an ordinary guy but not to you  
What do I have to do to make it clear to you  
You're humping around evry time I'm home  
What do I have to do to make you leaving me alone  
It doesn't bother me to see you once in a while  
But stop showing me that you're ready and fertile  
You could be cool, your not that kind of a bitch  
Who with every word she says, makes my blood itch

Is it me am I paranoid  
Should I behave like an android to avoid  
This conflict, no I don't want to harass you  
Though sometimes I just wanna crush you and bash  
you  
But that's not me I'm not the violent type  
Leave me alone and let me llive my life  
Without being afdraid to see you  
That I have to hurt you  
If I could avoid it that's what I should do now

Go away and let me be

Go away, you're choking me  
Go away  
Go away and let me be  
And let me be  
Go away, you're choking me  
What do I have to say  
Go away, and let me be  
There ain't no you and me

I know you're trying, you try to live your life  
You doon't have a lot of friends and you still try to  
survive  
I don't know how you feel towards me  
But it scares me the way you worship me  
That's how I see it, shit, and that's how I feel  
I'm not atracted to you, keep it real  
You'er always around no matter where I go  
Go away for a while, just lay low

Why can't you see that you're stalking me

You use every friend I have to get close to me  
At first me, then the band and my brother  
Later my friends you even got to my mother  
When I'm on stage you're in front  
After five minutes of waving I wanna break..  
No further this shit's gotta seige  
I'll put on it to before you break the peace now
