Every time I see you face to face
My heart opens and I feel so safe
'cause when I'm with you I have to embrace
Luck, but we're running 'round each others base
How can I forget the harm,
You did to me and all because of your charm
You hit on him and you didn't warn me
You cheated on me while I kept you warm
Cheated on me while I kept you warm

You destroyed my fantasy
While I thought you're the best for me

It was wrong loyalty but I came back
I tried but didn't cut the slack
I loved your smile but behind my back
You fucked with him and made me feel a nervous
wreck
I denied but I loved you,
You've pinned me down and still I forgave you
'cause every time you said your feelings were so true
I let you go, I'm breaking up say no to you
I'm breaking up say no to you

You destroyed my fantasy
And all because of your lies
While I thought you're the best for me
I've got to start a new life

I'm losing my mind and I can't get out
I'm stuck in a circle while running 'round
I open up my mouth and shout out loud
But no sound is coming out
It hurts like hell but I mask my face
Feeling fucked like a basket-case
Dressing up like a shiny ace
I try to get by this phase
Now listen up, do or don't you
Get the fuck off, will or won't you
Leave me alone, why don't you
I won't end it, fuck I'll haunt you
Now listen up, do or don't you

Get the fuck off, will or won't you
Leave me alone, why don't you
I won't end it, fuck I'll haunt you

Keep on turning
I'm spinning around
Can't find my way out
