This is who we are

No need to introduce, six suckers on the loose
We're bombing the set 'cause we know how to use it
All together in a stormy weather
Moving all up 'cause it's now or never
So for ever we get stuck at the top
Like an aggressive ferret, never giving it up
'cause we're smoking, keep on joking
With the people who want's us choking

You're the reason why make this (jump)
We take this, (jump)
We break this (jump)
And there's no other reason to it (jump)
We just do it, just jump, jump, jump

We don't need, no fucking turn-tables
To groove the shit an make it able
To move your body
On the beat so we keep on rocking the street
Two voices joined forces,
If it's explosive, well of course it's
So come on, bring on, the shit where we come from
We ain't going 'till we know that we're done
If you're looking for trouble, you're gonna get some
So SEH! move your muscles and hit that drums

Is it worthwhile to continue my style
Well we think that it is so prepare
'cause we won't give up and no price is enough
We're rocking this town so beware
No accusations I hate being patience
I want to get up and do some
That's why we won't stop until we filled our cup
And even then we go on,
We go on

That's why we're not afraid to give some fucking ball,
ya'll
I see what's on my mind and throw it in the flow, ya'll
I think it over and I stick it in my rhyme, ya'll

And I can do that,
Do it all the time
