Ooh...ooh...ooh...  
Yes, baby

The guys all fought over each other  
Just to get next to you  
They try too hard and they smile too much  
I admit that I've done it too

How can you blame us for actin like fools  
Hangin around like we do (Like we do)

When everything you touch shines a little brighter  
Everything you say sounds so fine  
Every time we meet I feel a little lighter  
Tell me how can I make you mine

I wish I knew what I could do  
To stand out from the crowd, yes  
To be the one (That you) you reach out to  
And put your arms around

How can you blame me for wanting to be  
The only that you see (That you see)

When everything you touch shines a little brighter  
Everything you say sounds so fine  
Every time we meet I feel a little lighter  
Tell me how can I make you mine

Oh, touch me, baby  
It would feel so good  
Oh, kiss me, baby  
Cause I know it would, hoo  
Love me, baby  
Come on love me, love me (Yeah), love me, ooh...  
Love me, love me, baby  
Ooh...ooh...yes

I hope some day I'll wake up and see  
The one you're holdin is me (Holdin me)

Everything you touch shines a little brighter

Everything you say sounds so fine  
Every time we meet I feel a little lighter  
Tell me how can I make you mine

(Everything you touch) Shines a little brighter  
(Everything you say) Comes out right  
(Every time we meet) I feel a little lighter, lighter,  
lighter  
(Tell me how can I) Tell me how can I make you mine  
tonight

(Everything you touch) Everything, everything,  
everything, everything  
(Everything you say) Everything you say sounds so fine  
(Every time we meet) Every time, every time, every  
time, every time
