Strollin' down the lane at midnight
Old fashioned love
Steal a little kiss in the moonlight
Old fashioned love

You're the love of my life
The girl of my dreams
I count on youYou can count on me

We got an old fashioned love
It's so hard to find
This one of a kind
Old fashioned love

Gotta be true to each other
Old fashioned love
Never hurt one another
Old fashioned love

Just like in the movies
But we're not pretending
Always and forever
Our love's one happy ending

We got an old fashioned love
It's so hard to find
This one of a kind
Old fashioned love
