the weekend is near
youre planning what to do
the parents are out
theres a party at stews
your discussing at lunch
talking to your friend
telling him how you want some beer
how you want school to end
the clock in your face
sitting in your last class
todays a friday
you need some beer in your glass
the bell just wrang
so you run to your car
you tell the boys to come over
so you make your house look like a bar
youre bearylly under-age
so you need a pull-out
get me mickeys and corona
and some lime with no doubt
