French cigarettes will never kill me (X4)

She's giving me good vibrations (X2)
Let's get carried away
The moon is full
And the drinks cool
Everybody's wound
I am falling for you

Jack came up from Arizona
Brought some friends
But they drank Corona
Something's wrong with the marijuana
We all got trapped inside the sauna

She's giving me good vibrations (X2)
(X2) Let's get carried away
The moon is full
And the drinks cool
Everybody's wound
I am falling for you

French cigarettes will.....(X3)

(X2) Let's get carried away
The moon is full
And the drinks cool
Everybody's wound
I am falling for you
