[snoop doggy dogg]

All I know and all I do is

D-p-g with the rest of my crew

We thru with milken milli vanilli

Silly niggaz who be rappin but they really be actin

Im smackin niggaz in they face

For the 9-8

My dj warren g and my homeboy nate

The game wont wait

So we paper chase

And watch out for them suckas who paper-hate

Try to drop some shit to keep you straight

Keep my niggaz on a mission

But my success, oh yes its fresh

Heres a toast to my lb for life

You can call me when you wanna

Or can catch me in the navigator bendin in the corner

I representin, just like billy clinton

I smack a bitch for my chips and dip

For dogg pound gangsta click

Chorus (x2):

Dont you wanna come with me to dogg pound
gangsterville

We can give you what you need in dogg pound
gangsterville

[nate dogg]

Once upon a time in the land of the foolish man

There lived a man who claimed to be foldin aces in
hand

He played wrong once and played em twice

And played em wrong again

Now its my turn to play the game

And I guarantee I win

Very best I have to be and I hope you understand

I got my game from gangsterville

Eastside of gangsta land

Chorus

[krupt]
Well you can give me half your loot, nigga
Or else ima shoot, nigga
I do what gz do- I ride
I slide, I drips double 4s fool
Wheres the clips
Youll find I hit your spine
And shake your hips with hollow tips
Its the modern day me
With the state of art modern day heat
Mutherfuckin modern day g
No good for for sho good
Put this nigga on the hood
And let me put him back the fuck off
Like that, you fuckin with the kobe bryant of rap
With a mack 11 cocked back ready for sure, ready for
war
For real enter if you will
In the land we call dogg pound gangsterville
All we do is smoke and just so you know
My motto is fuck you bitch and fuck a hoe

Chorus (x3)
