Can you give some of that shit to go a little something  
like

Herb is a plant

We live by the motto

There you know, Dank we trust

It's a smoky movement

With q-pees to prove it

Maintaining our cruise speed

Smokin only OG

Lift it up, like the trees

Higher than Bee Gees

Bitches want to meet me

But they can't smoke for free

Aroma, we you can't be part of it

If you wasn't there when I started it

Alcohol in my bong, is a harder it

Give a fuck right up punk ass compliment

I'm as hard as an OG

Back in the days

I got J for days in a major way smokin' major pain and  
bathe ape

We're smoking that shit

In a major way

Say,

Never want to hit

That's Spank 'n' Dank

So, I get the hit

And something on the split

Down with you lick

Smoking on

Yeah

Turn it up Wanch

Turn it up Wanch

Turn it up Wanch

Turn it up Wanch

We're smoking on

We're smoking that shit  
In a major way  
Say,  
Never want to hit  
That's Spank 'n' Dank  
So, I had to take a hit  
And Smokin' on a spliff  
And I had to take a lick  
Smoking on  
Yeah

Turn it up Wanch  
Turn it up Wanch  
Turn it up Wanch  
Turn it up Wanch

What's life without that dirty sprite  
How do you sleep without OG at night  
Rest in peace Bob Barker  
I guess the price was finally right  
Young hippies do come out at night  
Ready to party, but not starting fights  
Cause that's not what hippies do  
We just smoke up any dose  
The closest thing to mushrooms  
My flow is bigger than this room  
Big hitting hoes, get out of room  
I don't base with no clues  
The devil dress is really blue  
So you all just put more stress in your dose  
In your dose  
In your dose  
In your dose

While I'm just smoking cash  
Rolling hash  
Twisting shit that you never had  
Puffing OG man,  
The opposite is why I'm glad  
And I'm still switching it up, twisting them blunts  
Burnt everything that the one left for you chump  
And even if it was I got a OG cush buzz

We're smoking that shit  
In a major way  
Say,  
Never want to hit  
That's Spank 'n' Dank  
So, I get the hit  
And something on the split  
Down with you lick

Smoking on  
Yeah

Turn it up Wanch  
Turn it up Wanch  
Turn it up Wanch  
Turn it up Wanch

Hold it up, blow it up  
Cops smell it, they know it's us  
In Dank we trust  
In Dank we trust  
In Dank we trust  
In Dank we trust

Hold it up, blow it up  
Cops smell it, they know it's us  
In Dank we trust  
In Dank we trust  
In Dank we trust  
In Dank we trust

Smoke

Didn't we ask that herb  
Didn't we ask that for us  
Alright  
And even that shit, believe me  
You asked that herb  
Herb, isn't that that you did it four times  
But it'll be more important with me

Herb is a plant  
I mean, herbs are good for everything  
Why, why these people wanting so much good for  
everyone  
For everyone, who call themselves governments and  
this and that  
Why they say must not use the herb
