Gangsta, gangsta, gangsta  
G'd up baby like the big drum beater  
Blue cacky suit with the combo sneakers  
Braze to the side, hope no...  
Dancing with a freak, she got her ass on my peter  
Hennesey, so I pour another meter  
Roll with me baby I promise you'll kick your feet up  
Help your seats up, what you know you need it  
Nigga up... to flex and...  
Cop you like a glass from the bartender  
I got a lot of love for you, tell me where to send her  
Do you remember the last time you made love  
Was the player... a thug  
It really ain't my bindess yo, I really wanna be up in this  
hoe  
Damn, the music is loud in here  
Come close, let me whisper a lil something in your ear,  
come here

I got something to say to you, the way you move  
It's like chronical...  
And if you play it smooth I'll show you how a gangsta  
do  
Fill it in the grain blue, staying truth  
My Cadillac...  
Stacking up the revenue, and if you ready Boo  
I'll show you how a gangsta do

Yeah, it's the gangsta boogie, the gangsta hoodie  
You wonder how gangsta coodie  
Baby baby, give me the goodies  
In a white man's world, you give me the woodie  
Cute face with a big old booty, big old titties  
I meant to say tickle bitties  
Pardon me, I be gripping to spitting... and buy some  
time  
To get you a radical, cause I think me and you both are  
compatible  
... romantical, dramatical, I've been through a lot  
My life's radical  
I need you and I gotta know,  
Yep, yep cause this is the way you gotta go

A nigga been capping at you, rapping at you  
I wanna invite you to the cabin actor

I got something to say to you, the way you move  
It's like chronical...  
And if you play it smooth I'll show you how a gangsta  
do  
Fill it in the grain blue, staying truth  
My Cadillac...  
Stacking up the revenue, and if you ready Boo  
I'll show you how a gangsta do

You can walk on the left on me  
Baby girl you know you bring out the best of me  
I don't know, just might be destiny  
But I'm haste to see how the rest will be  
Love has a recipe, and this is just a test for me  
To see it... you're sweeter than sweet... you're just like  
juicy fruit

Lady you looking like a tasty pizza, candy  
Let me get you in the mood, and get gangsta in the  
room  
And we can stay a while and make sure you  
understand me  
Stop playing girl, show me some love, that's what's up  
Let me holler at you

I got something to say to you, the way you move  
It's like chronical...  
And if you play it smooth I'll show you how a gangsta  
do  
Fill it in the grain blue, staying truth  
My Cadillac...  
Stacking up the revenue, and if you ready Boo

I'll show you how a gangsta do X 2
