Every dog has his day  
Another thirty nine inch thick classic(Yeah, yeah, yeah,  
yeah)  
Girl, as I sit here thinking to myself  
There is no one for you but me, and I mean that  
And I think about all the things we've been through  
Like arguing and fighting for example  
You know the love we have for each other  
It tends to out weigh what do to one another  
Ya know my granddaddy use to always say  
Ya know he used to say it like this

(CHORUS)

There will be, ups and downs, smiles and frowns  
Share with me, fairy tales are make believe  
There will be, ups and downs, smiles and frowns  
Share with me, fairy tales are make believe  
There will be, ups and downs, smiles and frowns  
Share with me, fairy tales are make believe

(VERSE)

What up motherfuckers? This is Snoop Dogg  
I'm trying to figure out how the fuck I'm gonna do y'all  
Hanging with my homie from the turf, that's Young Q-  
ball  
Giving me the word from the street, here's the scoop  
y'all  
The niggaz from the Eastsidaz split up (split up)  
And one of 'em tried to fuck yo' shit up (What?)  
Naw cuz, don't believe that, that's my nigga for life  
I'm out with the bullshit, I'm in with the real shit  
I'm at the church doing work, spittin'game from the  
pulpit  
Now that's the bidness, and God is my witness  
LBC 213 Hell yeah, we in this  
It's so relentless, and all my dogs up against the life  
sentence  
I love y'all, like I love no bitch, and that's real shit  
On some CRIP shit, homie dig this

(CHORUS)

There will be, ups and downs, smiles and frowns  
Share with me, fairy tales are make believe  
There will be, ups and downs, smiles and frowns  
Share with me, fairy tales are make believe  
There will be, ups and downs, smiles and frowns  
Share with me, fairy tales are make believe

(VERSE)

I used to have a lot broads that I don't fool with  
I used to have a lot of homeboys I ain't cool with  
A lot people that a nigga went to school with  
Happy as hell to see the Big Dog doin' it  
But what none of them would believe though (What?)  
That I would be bigger then Curtis Blow  
I guess he was right, these are the breaks  
Despite my mistakes and aches, I'm gettin' cake  
To realize your fate through faith,(through faith)  
Cause we all gonna get that day (for what)  
To see if our lives was straight  
And to see if we be able to walk through those Pearly  
Gates (Yeah?)  
To see the man upstairs, on some real talk homie  
I'm tired of being stuck here  
If I could I would fly to the moon (zoom)  
Y'all probably think I'm trippin' off deeze mushrooms, (I  
know)

(CHORUS)

There will be, ups and downs, smiles and frowns  
Share with me, fairy tales are make believe  
There will be, ups and downs, smiles and frowns  
Share with me, fairy tales are make believe  
There will be, ups and downs, smiles and frowns  
Share with me, fairy tales are make believe

Now as I think back to the words my granddaddy used  
to say  
I never seen him in church, but he always had The  
Word  
And he always would tell me! Sometimes you gotta  
take the good with the bad  
You gotta do bad in order to do good
