Check it out, y'all
These ain't your local d boys
These are the brothers that be fighting the weed wars
On a mission, profit the change
Nature's best, green, buddy, planting the seeds,
earth's medicine
You can get it from us, like you get it from your local
store
It's good to go, and nobody can't get it from the
medicine man
Cause medicine man
Ah, I got to have it in my life, I got to have it, cause I
need it, I'm
Right
I got to have it in my life, I got to have it in my life
Cause it's the only thing I need, I need it in my life
I need the... seed, to see things...
The... I really need it,
It's the medicine, from the medicine man
Nobody can give it to me like the medicine man
These ain't your local d boys
These are the brothers that be fighting the weed wars
Say cause these ain't your average d boys
These are the brothers that be fighting the weed wars
Say cause these ain't your average d boys
These are the brothers on a mission for weed wars.
