[Incomprehensible]

I'll come running for my life  
Scramble through these greasy pathways  
I can't look up for fear of forwards  
I hear your words reverberate

An easy ride is all you said  
I was an easy ride is all you said  
I was an easy ride is all you said  
I was an easy ride is all you said  
I was, said I was

[Incomprehensible]

Please try to control your feelings  
It doesn't make me want you more  
I'm terrified by every vacant  
Glance you shoot across my way

An easy ride is all you said  
I was an easy ride is all you said  
I was an easy ride is all you said  
I was an easy ride is all you said  
I was, said I was

[Incomprehensible]
