I'll get tired of the heart attacks
Every time it rings
I'll put myself on the waiting list
And get it all cleared up

You're the one with the attitude
Don't try and make me out
To be the root of the evil in
The whole rotten affair

Lie back and suffer now
We've both earned our reward
Lie back and suffer now
We've both earned our reward

Buried deep in the telegram
I'm sure I never got
Was any clue of the whereabouts
Of all the things I'd lost

Just because you were right before
Doesn't mean you're right
To make up now would just vindicate
Every doubt I had

It's not as simple as
How much you think you care
And you would never know
When to take the hint

Broken glass aside
My feelings stay the same
Covered head to toe
In blood and fear and spite
