"Easy Way Down"

It's easy to be comfortable
But it's a long way down to the sea
It's easy to be comfortable
But it's a long way down with me
It's a long way down

Cut my arms, I don't bleed red
Water drips from the cuts instead
I have the cold gray water of the Thames
Flowing through my veins
Flowing through my veins

You pay for the hope, I'll pay for the rest
I didn't have a future 'til I got one and quit it
Time's getting faster and I haven't done anything yet
No, not yet

It's easy to be comfortable
But it's a long way down to the sea
It's easy to be comfortable
But it's a long way down with me
It's a long way down

You take the praise because I'm paying for the past
Pretended not to have a history until it caught up with
me, at last
Time's still getting faster and I haven't done much yet
It's not quite what you wanted, but that's all you're
going to get

It's easy to be comfortable
But it's a long way down to the sea
It's easy to be comfortable
But it's a long way down with me
It's a long way down

10 hours out of Dalston and I barely have time to blink
The days run away like dirty water swirling down the
sink
10 hours out of Dalston and I barely have time to blink
The road ahead is dusty and long
It's making me thirsty just thinking about it

I'm definitely going to need another drink
Definitely going to need another drink [3x]
