Visit "[Main Chick](#)" on MotoLyrics.com

All I gotta do is just call her I feel like gettin into
Somethin and shawty would always get me right

24/7 she always ready she got me whenever really
even
In the middle of the night

Shawty you my main chick and she knows
Drivin me insane chick so lets go
Always down to ride
Wit whatever's on ya mind
And girl I gotta keep you for real cuz u my main chick
You my main chick

Aye baby I hope you know you the only girl I'm wit
You like my antidote and when I'm not wit u I'm sick
These girls be tryna holla but I know they not my chick
Cuz u da only girl that I see myself in love wit

I know it seems I be playin but can you realize
That only real eyes can see threw the real lies
I'm one of a kind aint nuttin like those other guys
And everytime we makin love it gives me butterflies

You got me vision so blurry twisted I'm wishin
That we could meet up and kick it and maybe exchange
Some kisses
I
Know your my misses my love and the one that listens
So when I go out to get it just know that I'm on a
Mission girl

All I gotta do is just call her I feel like gettin into
Somethin and shawty would always get me right

24/7 she always ready she got me whenever really
even
In the middle of the night

Shawty you my main chick and she knows
Drivin me insane chick so lets go
Always down to ride

Wit whatevers on ya mind
And girl I gotta keep you for real cuz u my main chick
You my main chick

See I was jus cruisin around tryna find somethin to get
into
I know what imma do pick up the phone and call my boo
It rang once she answered quickly whatchu doin babe
That was fast she said that she was waitin all day

I said baby I'm bout to scoop you up you down to ride
She said you know me boy I said well take a look
outside
And right away a long week you got me feelin better
Windin up huggin me like you aint seen me in forever
Lookin all sexy ya hair down wearin my sweater
So whatchu wanna do shawty cuz wit me it's whatever

Whenever me and my girl apart I'm feelin sick
That's why I gotta keep you for real cuz u my main
chick

All I gotta do is just call her I feel like gettin into
Somethin and shawty would always get me right

24/7 she always ready she got me whenever really
even
In the middle of the night

Shawty you my main chick and she knows
Drivin me insane chick so lets go
Always down to ride
Wit whatevers on ya mind
And girl I gotta keep you for real cuz u my main chick
You my main chick

She got the looks she sexy wit the right attitude
And if she wanted to be my girl she know that I wanna
be her dude

She never doubts me she da type to brag about me
I get on the mic to express my love so she can hear me
loudly

These other broads don't catch my eyes cuz u got my
attention
It's been my plan to get wit you girl it will full intention

You got me feelin the same whenever your feelin
dandy
She acts like a girly girl so you know I remain so manly

Anyways
In any weather girl I be there protect ya
She stay on the right side of her boo whenever we start
a session
She's me voice when I spit so I call her young rugged
and sick
These others girls stay on the side cuz u know u my
main chick

All I gotta do is just call her I feel like gettin into
Somethin and shawty would always get me right

24/7 she always ready she got me whenever really
even
In the middle of the night

Shawty you my main chick and she knows
Drivin me insane chick so lets go
Always down to ride
Wit whatever's on ya mind
And girl I gotta keep you for real cuz u my main chick
You my main chick you my main chick
