Close your eyes  
Let the cold inside  
It's time you realised that you are gone  
Still alive  
Only twelve foot five  
Your head is in the clouds  
What have you done?  
Seventeen  
Jesus where you been  
A revolutions ending while you sleep  
Gangsta man meets the Klu Klux Clan  
But I'm no taller than your hands or feet  
(chorus)  
Ohhh Ohhh  
Tommorow we'll be even older  
Ohhh Ohhh  
But that won't stop you getting taller

Ohhh Ohhh  
My life is in no special order  
Just remember I was small  
I can't believe  
That you're dwarfing me  
Maybe it's because I've got to small  
No one cares  
They walk around in pairs  
Denying that they ever were alone  
Truth is lies  
You've only got one life  
And sometimes it is shorter than you think  
Someone cares  
Someone knows you're there  
You've only got to find the missing link  
(chorus)
