A ray of light beams through the clouds  
As you think that you're heaven bound  
I don't think so  
A false sense of hope  
So take your last breath and make it quick  
Cuz I'm sick of how you scream and kick  
A mercy's plea sounds so sweet to me

(Chorus)  
Because the rain I prayed for  
Has given me so much more than a will to live  
I found confidence

So now that every breath is gone  
I lift my foot completely off  
Of your sweet face  
How I'll miss your taste

There is no time to say goodbye  
I'm thinking of an alibi  
To tell your friends  
Hope they understand

(Chorus)  
Because the rain I prayed for  
Has given me so much more than a will to live  
I found confidence

Stand face to face  
You said I'd never leave this place  
Stand face to face  
You said I'd never leave this...
