

So Many Dynamos "Glaciers"

Visit "[Glaciers](#)" on MotoLyrics.com

Glaciers will melt but we'll be alright.
We still have novels and songs to write.
We'll go on living just like we do.
We'll keep evolving if we have to.

Earthquakes will finish what's been started.
We'll make a point to disregard it.
We'll go on living like we always do.

New feet, new lungs.
Sharp teeth, sharp tongues.
Soft hands, soft hearts.
Fresh air, fresh start.

Glaciers will melt but we'll be alright.
We still have novels and songs to write.
We'll go on living just like we do.
We'll keep evolving if we have to.

Landslides will keep us from ignoring.
We'll still be here tomorrow morning.
We'll go on living like we always do.
