

So Many Dynamos "Keep It Simple"

Visit "[Keep It Simple](#)" on MotoLyrics.com

Are we having fun yet?
Are your muscle sore?
Our bodies get what our bodies want,
And our bodies want more!

We came down too soon,
Go on and tell me: was it good for you?
We came down too soon,
Go on and tell me: was it good for you?
Slowed down too soon,
Ten beats per minute, now we're at altitude
We came down too soon,
Go on and tell me: was it good?

When we thought we were alone
We went down to the numbered streets,
And we never made it home

We came down too soon,
Go on and tell me: was it good for you?
We came down too soon,
Go on and tell me: was it good for you?
We drove too far
Crashed our car into the Gateway Arch
Slowed down too soon,
Ten beats per minute, now we're at altitude
We came down too soon,
Go on and tell me: was it good for you?
We came down too soon,
Go on and tell me: was it good?

Metal's colder when it's pressed against your temple:
Keep it simple.
