Visit "[Couple In Life](#)" on MotoLyrics.com

there is couple in the park play and laugh up...
there is couple in the street kisses and hold hand
it must be anywhere running round my brain
but im not allowed there im uninvited there

there are parties in the skies dance and drink up
there is sorrow on my day shadow of the past
it must be anywhere running round my brain
but im not allowed there im uninvited there

cause its life like turning on the circle
its destiny wont stop
today so cold yesterday so.....
you are my only friend miss you more than anything
you are my only friend that i always allow to be with
forever.....
