I will not listen to you  
Don't ever tell me what you want me to do  
Don't want to listen to your lies  
Now here's the one thing that might be a surprise

I don't care  
Nothing you do or say will make me care today  
I don't care

I'll always do just what I want  
This is something that I love and always flaunt  
Now theirs something to decide  
Will you care about the ones who fucken lied?

I don't care  
Nothing you do or say will make me care today  
I don't care

How can I care?  
How can I care?  
When no one cares for me?  
How can I care?  
How can I care?  
What's there to do?  
I hate you and what you are to me  
I see the filth in your eyes  
Cheat and just lie then deny  
It's what you need to be  
Keeping the rock dream alive

I don't care  
Nothing you do or say will make me care today  
I don't care
