"I Love Her"

Visit "[I Love Her](#)" on MotoLyrics.com

Sleep, stiff and motionless
Quiet loving bliss
Touch her skin and feel
See what death reveals
I need your life to heal
I lead your life to hell

I love her because she's dead
Cold dreams of love fill me head

Gone, your life I won't miss
Death gave you a kiss
Wet death on your lips
Green death inside your hips
Stiff passion, no breath
The passion of death

I love her because she's dead
Cold dreams of love fill my head

Searching for the ones you want to love
Finding then watching and choosing from above
Evil is not part of what I feel
Then you give in and fate is sealed
Your fate is sealed

I love her because she's dead
